- **Understanding plans, capabilities and limitations of other stakeholders is key to building your own plan**
- **Coordinate, collaborate, integrate, synchronize...**

**NORAD-USNORTHCOM operates in a complex interagency environment**

# AMCIT Return

## Agency Operations

- CBP: Designated 9 civ airports for returning ^ Office of Field Ops responsible for in-processing AMCITs; processed & re^ illegals turned over to ICE
- HHS: Tasked to develop plans and pr ^ assistance to U.S. citizens evacuated from overseas (EO 12656) for arranging through state agencies for the reception, temporary ^ and transportation to the final destination (relies on state ^ national responsibility)
- ICE: Once an individual a ^ U.S., CBP determines if the individual is an illegal. If so, that individual is ^ over to ICE. ICE will detain or remove individual.
- DHS: HSTF-SE and CBP are ^ DHS leads for Haiti response planning and operations
- DOD: Advise/assist DOS and other agencies in planning for protection, evacuation, and repatriation of AMCITs in threatened areas overseas (EO 12656)

# Perceived GAPS/Assessment

## Perceived GAPS

1. Assets for transportation of AMCITs; HHS or state lacking capacity
2. Challenges in coordination between agencies; international level to state level
3. Mass or controlled movement of Haitians to US
4. Return of AMCITs to Homestead; no infrastructure in place to process AMCITs; is there still a DOD requirement to support

## Agency Goals to Close GAPS

1. Agreements with states, request of DOD transportation; HHS granted \$25M to pay for transportation; FL will bill HHS for reimbursement
2. State EOC facilitating coordination issues at their level; Federal agency LNOs embedded with the state (either at HSTF-SE or state EOC); DHS POG recommending DHS assume overall coordination role
3. HSTF-SE, ICE and CBP continue to plan for OVS implementation
4. CBP and HHS are present at Homestead; DOD proposal to fly only to Orlando - Sanford

## *Take-Aways*

- **Need for the COCOM to be strategic, yet agile enough to be operational**
- **Need for an “operational” component to address the interagency**
- **Given NORTHCOM’s relationship with Mexico, Bahamas, Turks, Caicos, and Canada, NC needs internalize lessons of Haiti in the anticipation of support to these other nations**
- **Primary emphasis should be focused on providing support to the international lead/primary agency (USAID/OFDA) vice our normal domestic JFO/FCO construct.**
